Report of The Superintendent of Schools

To the School Board of East Kingston, New Hampshire:

It is with pleasure that I submit my fifth annual report as superintendent of schools.

The school year 1952-1953 opened with the following personnel:

Mrs. Clara Merrick, Teacher of Grades 5-8
Mrs. Blanche Loch, Teacher of Grades 1-4
Mrs. Eleanor Henry, Teacher of Music
Mrs. Regenia Matthews, Teacher of Art
Miss Mary Shea, School Nurse

There was one change in the teaching staff as the new year started. Mrs. Clara Merrick replaced Mrs. Frances Nesbitt as teacher at Brown's Academy and I feel sure that everyone concerned was very happy to welcome back Mrs. Merrick to her former teaching position. This is a very strong and competent staff of teachers and I feel that the boys and girls are receiving excellent training under their supervision and guidance.

During the summer, the School Board had the hallways at the Pound School redecorated.

The Trustees of Brown's Academy installed a new oil burning heating system which is providing uniform heat in the classroom and hallways and which greatly increases the comfort of the students and teachers.

The Trustees have also installed outdoor basketball standards for both the boys and girls who have very much enjoyed using them. The School Board purchased outdoor basketballs for this purpose.

The erection by the School Board of Private Way signs at either approach to the Pound School has greatly reduced the hazard to the children which existed when several private cars and trucks were using this driveway more or less regularly. The driveway is much too close to the building to permit such use.

This year a cumulative record system is being introduced so that the scholastic, attendance, health and testing records of each youngster will be kept on individual cards and will be passed along with the child as he goes from one school to the next. This will assist the teacher in guiding the student in his school work.

The anticipated increase in numbers of boys and girls in the lower grades has not as yet materialized partly due to the fact that some of them moved away during the summer. However, a large first grade is expected next year so that each school will undoubtedly have between thirty and thirty-five students another fall, maximum number to be handled by a teacher who has four grades.

I wish to commend the P. T. A. for the several ways in which it has assisted the program of the schools. The purchase of records and the Arithmetic Readiness equipment for the children at the Pound School and the furnishing of transportation for field trips for both schools are especially appreciated.

I call to your attention the reports and tables which follow. I trust that these will be of interest to you.

I wish again to thank the citizens, the members of the School Board and the teachers for their fine co-operation and support.

Respectfully submitted,

RAYMOND A. HOYT,
Superintendent, Supervisory Union No. 16.

Report of The Art Supervisor

To the Superintendent of Schools:

This year as always the main objectives of the art program are the development of imagination and creative ability, the encouragement of each child's love of beauty and the greater use of his artistic judgment in his daily life.

In order that special talents might be recognized and encouraged, as great a variety of mediums were used throughout the year as could be reasonably managed.

The children of the first four grades worked with crayons, cut paper, finger paint and clay.

The upper grades not only worked with crayons and finger paint, but each student designed and printed his own Christmas cards, cutting his own design in linoleum. They also made textile designs, cutting their own stencils and stencilling place mats. They had lessons in lettering, color harmony and art appreciation. They are doing excellent and very interesting work.

I wish to express my appreciation to all who have co-operated so splendidly in making this a successful year.

Respectively submitted,

Report of The Supervisor of Music

To the Superintendent of Schools:

The purpose of a music program in the schools is to give the children a foundation and interest in music. It is hoped that from this beginning they will acquire and retain an active interest in music throughout their entire school years and life.

From the first grade, when work on rhythm band action songs and folk dances help to interest the small child in music, through the upper grades, where knowledge of note reading and part-singing which has been acquired, is put into practical use, the most important thing is that the pupil keep up his real interest in the field of music.

At the graduation exercises in June, specially prepared songs were sung.

Pupils of both the Pound School and Brown Academy presented informal Christmas programs in their respective school-rooms.

I enjoy my work very much and find the teachers and pupils very co-operative.

I wish to thank Mr. Hoyt, the School Board, P.T.A., teachers and parents for their co-operation.

Respectfully submitted,

Report of The School Nurse

To the Superintendent of Schools:

During the past year the children of East Kingston have taken an added interest in health. This is due in great part to the efforts of the teachers who have given more time to health subjects in the classroom. It is also due to the fact that visual aids have been used to stimulate healthful habits.

The nurse has a two-fold job to perform; (1) to provide health services, and (2) to stimulate health education.

Every child in the lower grades and many in the upper have completed a health scrap book. Some of the results have been remarkable. This is one way of stimulating their interest, and provides a carry-over by placing emphasis on transferring what is taught into action.

Health services have continued to be the conducting of hearing and vision tests, checking the growth of the children and examining the teeth and general condition of each child.

Enough emphasis cannot be placed on the need for dental services. Perhaps in the near future a clinic can be provided for the children of East Kingston whose need is greater than that of any other area in Union No. 16.

Anything we do, no matter how small it may seem, that improves the health of the children now will develop healthier, happier, more efficient children and citizens later.

I want to express my thanks to the teachers and parents for their cooperation in helping me carry on my work as school nurse.

Respectfully submitted,

MARY G. SHEA, R. N.
